AFTERNOON DISPATCHES.

A Thirtean Million Dollar Fire at Racine, Wisconsin.

Bodies of DeLong and Ten Men Found—The Impression Goes Out that the Chinese Bill Will be Signed.

Associated Press Dispatches.]

CHICAGO, May 5, 11 P. M.—A fire is raging at Racine, Wis., and the entire town is threatened. The Chicago and Milwaukee fire departments are called on for assistance, and have sent engines. The fire broke out in the Goodrich steamboat dock and spread to the St. Paul elevator, the lumber yards, dock and salt sheds and to all property for four blocks. The fire is still raging.

RACINE CALLS FOR HELP.

MILWAUKEE, May 6.—The Mayor of Milwaukee has received the following dispatch:

RACINE, May 6.

Mayor Stowell, Milwaukee:

Send us as many fire engines as you can spare. The city is threatened with being wiped out by fire. The lumber yards are on fire now and the wind is blowing toward the city.

W. P. PACKARD.

ADDRESS FROM MAYOR STOWELL.

MAYOR'S OFFICE, MILWAUKEE, May 6th.

To the Citizens of Milwaukee:

At this writing, 12:30 A. M., our sister city, Racine, is at the mercy of the flames. Her Mayor has called on me to send as many fire engines as we can spare to them. Three are on their way thither. I therefore call upon you to exercise extra care lest a simlar calamity overtake us in our partially defenseless condition. I hope our firemen may soon return, and that all may be well; but in any case the greatest precaution would not now be out of place. Dispatches are being received saying that the conflagration is spreading, and we may need to send more of our force unless those already gone forth are successful in their mission.

J. W. STOWELL, Mayor.

LUMBER YARDS IN FLAMES.

RACINE, Wis., May 6, 3 A. M.—The lumber yards of Racine are a mass of flames. All valuable books from the railroad office are being removed, as it is feared that the flames will spread to that structure, and if they do will go from there to Main street. The whole city is aroused. Excitement runs high. The streets are thronged with people.

RAPID SPREAD OF THE FIRE.

RACINE, May 6, 3.10 A. M.—The fire is still progressing, burning everything in its way At present everything is burned north of Third street from lake to the river, and the fire is making very serious headway south of Third street. Two engines have arrived from Milwaukee. It looks as though the whole city was doomed, no engines having arrived from Chicago. At 3.25 the fire has reached Fourth street, and will soon be across that street east of Main.

THE LATEST.

RACINE, May 6—3:45 A. M.—The fire beggars description. Over ten millions of property is destroyed. Engines have just arrived from Milwaukee.

A dispatch just received fixes the losses at thirteen millions. The fire is still raging.

NOTHING RELIABLE.

CHICAGO, May 6.—Nothing can be obtained from Racine yet as to the condition of the burned city. A gentleman well acquainted with the city says that the fire, according to the accounts received, burned that section bounded by the lake on the east, by the river on the southwest and by Fourth street on the north, which comprises about nine blocks, but not the finest ones in the city. He says the loss would probably not exceed $2,000,000 on this property, and that the estimates of thirteen millions are absurd.

WASHINGTON NEWS.

LOWELL'S RECALL EXPECTED.

WASHINGTON, May 5.—Although as yet there is no official corroboration of the rumor, it is very generally believed that President Arthur has decided on the recall of Minister Lowell. His successor to the Court of St. James has not been fixed upon, but it is thought it will be some one more in harmony with the recent political changes of England on the Irish question than Lowell has shown himself to be.

HENDERSON ELECTED.

The Executive Committee of the Republican Congressional Campaign committee elected Col. D. B. Henderson, of Dubuque, Ia., as Secretary.

ADMIRAL RODGERS DEAD.

Rear Admiral John Rodgers died at his residence, Georgetown Heights, this evening. The Admiral was 70 years of age, and for a number of years was Superintendent of the Naval Observatory.

MELVILLE'S DISPATCH.

Secretary Chandler received to-night the following dispatch from Engineer Melville:

IRKUTSK, May 5; Lena Delta, March 24th, '82.—Found DeLong and his party dead. Found all papers and books. Will continue the search for Chipp. MELVILLE.

NO LIVES LOST.

WASHINGTON, May 6.—A corrected dispatch from Hoffman at St. Petersburg says that no lives were lost by the burning of the steamer Rodgers at Lawrence Bay.

Porter and the Chinese Bill All Right.

NEW YORK, May 6.—The *Tribune*, commenting on a Washington special, says that the President has decided to pardon Fitz-John Porter and sign the Chinese bill. It is said that the papers have been prepared, if they have not already been sent to the cashiered officer. The reduction of the period of exclusion from twenty to ten years has probably removed the President's objections to the measure against Chinese immigration.

Killed His Mother.

PHILADELPHIA, May 6.—At 7 o'clock last evening John Davidson, aged 32, residing at 718 Sansome street, killed his mother, 60 years of age, by crushing her skull with a hatchet. He was arrested.

PACIFIC COAST DISPATCHES.

The Democratic Clubs of San Francisco Organize.

SAN FRANCISCO, May 6.—Forty-seven of the Democratic Clubs of the city met last evening at their respective places of meeting and effected a permanent organization by the election of officers. They are preparing to wage a vigorous campaign.

CELEBRATING PARNELL'S RELEASE.

SAN FRANCISCO, May 6.—This evening a grand mass meeting will be held at Union Hall to celebrate the release of Parnell and his associates from prison and the success of the cause of Ireland.

THE CHINESE POURING IN.

SAN FRANCISCO, May 6.—Another British steamer, the Altonower, arrived to-day from Hongkong with 829 Chinese on board.

STOCKS.

SAN FRANCISCO, May 6.—Curry, $2⅜; Ophir, $3⅛; Mexican, $7¼; Union, $12⅜; Nevada, $8⅛; Jacket, $1: Best, $5⅜; Utah, $3; Bullion, 30c; Savage, $1¼; Tiptop, $3½; King, $18.

THE MAN NOT DEAD.

FRESNO, May 6.—The Sheriff returned late last night and reports McCall not killed, but seriously wounded.

DE LONG'S PARTY.

Ten Bodies Found by the Natives.

NEW YORK, May 5.—By cable to the *Herald*: Irkutsk, May 5th, morning—The following dispatches have just been received there by special courier from Jackson, the *Herald* correspondent, on his way north to the mouth of the Lena:

DISPATCH NO. 1.

DEER STATION, Kemurach, in the district of Verchnaranz, April 10, 1882.—A rumor is current among the Tungus (natives) that five men have been found by Tungus at the mouth of the Lena. They described one as wearing a gold-faced uniform. Noros tells me that Capt. De Long wore his uniform under his ulster at the time of landing. I give this as a rumor; but it is remarkable that the news spreads among the Tungus with great speed.

JACKSON.

DISPATCH NO. 2.

FORTY MILES BEYOND KEMURACH, April 12, 1882.—Cossack Estafelle (special express) has just arrived here with dispatches, bringing news that the bodies of Capt. De Long and ten men had been found in one spot. He takes sealed dispatches which you will receive with this. JACKSON.

The Herald in Mourning.

NEW YORK, May 6.—The *Herald* appears this morning in mourning over the loss of De Long and party.

Nine Persons Poisoned.

PITTSBURG, May 5.—Nine persons were poisoned in a boarding-house yesterday. The poison was given to a servant named Julia Watkins by one Nilter Frye, with instructions to mix it in the bread. All who ate of the bread were very sick, and one or two of them may die. The servant denies having had anything to do with it. Frye has fled. The cause of the act is not stated.

A Postmaster Indicted.

OMAHA, May 5.—The indictment reported this afternoon in the United States Court in the Star Route cases against ex-Postmaster Clary, of Sidney, charges him with making out false mail reports and registries. The document comprises two hundred and twelve pages of closely printed matter. Clary is the witness who disappointed the prosecution in the trials of Corbin and Iddings, at Lincoln last winter by failing to testify to facts expected to convict him.

Mistaken for a Burglar.

GREENVILLE, Miss., May 6.—Dr. Preston E. Buckner was mistaken for a burglar, by W. J. Wentworth, and shot dead.

Fraudulent Scrip.

SIOUX CITY, May 6.—There is supposed to be in existence $200,000 in Surveyor's scrip, falsely represented to have been issued at Santa Fe by the Assistant Treasury of the United States. John D. Cameron, of Sioux Falls, Dakota, has been arrested for connection with the fraud and taken to Yankton.

In his experiments with the strength of insects, Plateau, the French naturalist, has ascertained that in proportion to its size a June bug is as powerful as a locomotive.

At a recent ballot for the Oxford and Cambridge Club, according to the London Truth, Mr. Ashmead Burdett-Coutts achieved the unprecedented distinction of receiving twenty black balls.

A resolute course of "Boycotting," vigorously carried out, would make the Chinese go quicker than half-a-dozen anti-Chinese bills. Let us meet, organize, lay down a policy and show the sickly sentimentalists of the east that we are in earnest in our endeavors to rid ourselves of the curse of Chinese cheap labor.

The citizens of Riverside have raised $375 to pay for 5,000 trees brought in from a red scale district, rather than to allow the trees to remain there. The people have also signed a paper agreeing not to import trees from red scale districts.

A member of the Sacramento Board of Education has succeeded in effecting the passage of a resolution to pay twenty dollars to the young lady graduate who appears at the High School Commencement exercises in the least expensive dress.

There are 25,000 head of sheep to be sheared at Alkali, W. T., the present spring. A number of heavy sheep men have made all the necessary arrangements, with dips, corrals, etc., for shearing at that point, and by this means drive their wool to market instead of hauling it.

A board fifteen feet long and fifty two inches wide has been produced by the Yellow Jacket mill, in Tehama County, California.

GARFIELD SURGERY.

A correspondent of the *North American Review* sarcastically handles the doctors who handled Garfield after the wounding. The writer thinks in this case scieuce made a pitiful and futile display of her resources, and suggests that never again in this generation should science say one word against religion. In Garfield's case science had solid ground to stand on to demonstrate her power. Before her eyes, under her hand, lay a human soul in sore strait—a human life hunted into the valley of the shadow of death, longing to come out again into the sunshine of the fair and open day. The whole world shared in the longing, and whatever love and wealth could proffer or gratitude could inspire, and everything that ambition could desire, lay in wait to reward the man who should conduct the sufferer back through the gates of life. No cost hindered any experiment or curtailed any care. The nation stood behind, not only permitting, but urging every expenditure of brains and money. The result was failure, absolute, thorough, undisputed failure—failure so minute and complete, that only its terrible gravity kept it from being ridiculous. What availed science to Garfield? She never treated or touched the wound which the bullet made, and which she was summoned to heal. She never even found it. She made two ghastly wounds herself, and for eighty days she clawed at them. The bullet, which the surgeons could not find, nature carefully cysted. The bullet-wound, which they never touched, nature safely and silenty healed. Surgical science is reduced to the pitiful claim that she alone kept Garfield alive for eighty days! The correspondent we quote gives utterance to thoughts that have burdened many minds, and now that we have to pay the bills to the amount of about a hundred thousand dollars, we appreciate the sarcasm of the writer, and join in the conclusion, that, considering the wound and the treatment, "not one man in ten thousand could survive the horrors of it for eighty days."

RAILROADS.

Advices from Arizona give us more light on the railroad situation and development in that Territory. It is not probable that the contemplated road from Tucson to the Gulf of California will be built, at least not very soon. But it may be considered a certainty that a road will connect the Southern Pacific Road with the Gulf point. Should the Tucson and Gulf Railroad projectors meet the Southern Railroad Company with the right kind of concessions and inducements, they may secure the road for their city, otherwise it will be run from either Gila Bend or Picacho. From the latter point to Point Lobos, on the Gulf, is about two hundred miles, and the route is through a fine grass region, now not utilized for lack of transportation to get produce to market, and it will run midway through a well-known, rich mineral belt, which only awaits the means of getting machinery and supplies to it to put in motion streams of bullion unsurpassed by anything in remarkable Arizona. Additional to this, we learn the work on the road from Benson to Guaymas is being vigorously pushed, and but a few months will elapse ere we have the State of Sonora open to our merchants and miners.

SHIP AND RAIL.

We are apprised that one reason why the extension of the railroad between Wilmington and San Pedro is not worked is the lease or contract existing between the S. P. R. R. and General Phineas Banning. The terms under which the General has been working the lighters has never been made public, to our knowledge. It has generally been given out as a sale to Banning, but rumors now represent it as a lease, and that it has a year from next October to run, until which time the present inconveniences must be borne unless the R. R. Co. will buy the General off.

THE telegraph brings us the news that seals the fate of Captain De Long of the exploring steamer *Jeannette*. The New York *Herald*, the paper of Mr. Bennett, the patron of the Jeannette expedition, appeared in mourning over the sad intelligence.

LAST NIGHT'S DISPATCHES

Positive Statement that Arthur will Sign the Chinese Bill.

The Arizona People Kick Against Arthur's Proclamation—Assassination in Dublin—Porter Pardoned.

Associated Press Dispatches.]

WASHINGTON, May 6. — President Arthur will sign the Chinese bill this afternoon. He may possibly accompany the official announcement of his approval with a message to the House of Representatives, commenting upon it, but he will nevertheless sign the bill.

NO HOPE FOR CHIPPS.

No additional particulars concerning the fate of Lieut De Long and party have been received. The Navy department officials have little or no hopes for the rescue of Chipps' party.

NO LET UP.

The examination of Senator Blaine before the Committee on Foreign Affairs was resumed this morning.

FITZ-JOHN PORTER.

The Attorney-General has recommended the President to remit that continuous part of the sentence of the Court-martial, disqualifying Fitz-John Porter from holding office under the Government. It is believed the President will remit.

DOINGS OF THE HOUSE.

WASHINGTON, May 6.—A resolution was adopted permitting the contestent in the Alabama contested election cases, Madison vs. Oakes, to withdraw his papers. This leaves Oakes in possession of his seat. Hubbell introduced a bill to enlarge the powers and duties of the Department of Agriculture and it was referred. It provides that the Department of Agriculture shall hereafter be the Executive of the Department and the Commissioner shall be known as the Secretary of Agriculture, and the Bureau for the collection of information concerning railways, manufactures, mining interests and animal industry be attached to the Department. The conference report on the Indian appropriation bill, submitted to the House to-day, appropriates over $200,000 for the education of Indian children.

ARTHUR'S PARDON.

The Proclamation and Fitz-John Porter's Reply.

WASHINGTON, May 6.—The President, in answering General Fitz-John Porter's application for consideration of the sentence of the court-martial being executed, issued a proclamation which removes only the legal obstacle to Congressional action, and goes to limit the facts of the court-martial and its results, proceeds:

WHEREAS, Doubts have since arisen concerning the guilt of said Fitz John Porter of the offense whereof he was convicted by said Court-martial, founded upon the results of an investigation ordered on the 12th of April, 1878, by the President of the United States, which are deemed by me to be of sufficient gravity to warrant the remission of that part of said sentence which has not been completely executed.

Now, therefore, know ye, that I, Chester A. Arthur, President of the United States, by virtue of the power vested in me by the Constitution of the United States, and in consideration of the premises, do hereby grant to said Fitz John Porter full remission of the hereinbefore mentioned continuing penalty.

CHESTER A. ARTHUR.

By the President:
FREDERICK T. FRELINGHUYSEN,
Sec'ry of State.

The following is Gen. Porter's acceptance:

WASHINGTON, May 6.—Hon. Fred'k T. Frelinghuysen, Secretary of State: Sir—I respectfully ask you to express to the President my acknowledgments of the order remitting the continuous portion of the sentence imposed upon me by court martial in 1863.

I am very respectfully,
FITZ JOHN PORTER.

THE PRESIDENT'S PROCLAMATION.

What the Arizona Star Says—Violent Indignation.

TUCSON, A. T., May 6.—The President's Proclamation in regard to the lawlessness in Arizona, has created much indignation among the people. The *Star* editorially this morning says; "The false and scandalous stories about organized lawlessness in this Territory, which have been sent to Washington and which have procured a proclamation from the President ordering the promoters of disorder and tumult to disband, are outrageous slanders which should cover their authors with infamy. There has been no time when the law could not have been executed in Arizona with the assistance of the Federal officials. Criminals at any time could have been brought to punishment with their help. There has been no terrorism and no difficulty in the administration of justice, save that inaugurated by them. The personal disputes between individuals has not been fiercer nor more desperate than usually prevails in few communities. But the President's proclamation certifies to the country that we are in the midst of social convulsions, that the law is powerless and that organized bands of desperadoes are rioting through the territory. When this is read in the East the tide of immigration will be arrested and capital, upon which we have to rely for the development of our national interests, will be turned into other channels, and will seek other places for investment. These are some of the evils which will result from the proclamation. But they are by no means the worst. Timid people will shun Arizona as if it were a nest of outlaws. Property interests already invested here will be withdrawn, and public opinion, which is so potent for good or evil, will be colored and directed by an Executive order procured in fraud and issued to subserve the basest and most dishonorable purposes. The entire people of the Territory have a right to be indignant. There is neither justice, truth nor magnanimity in it. It was born in false and acrimonious misrepresentations and guile and treachery to the best interests of the people of this Territory. The origin of this scandalous outrage is simply this: A band of Deputy United States Marshals engaged in the most wanton and criminal practices, under the color of their official authority they murdered innocent people. When the Sheriff of the county in which their crimes were committed sought to arrest them they interposed their official position and resisted the execution of the law. These are the facts."

Mrs. Booth's Will.

NEW YORK, May 6.—The will of Mrs. Edwin Booth gives her personal property to Mrs. J. H. McVicker, of Chicago, her mother, and the rest of her estate to her husband, who is the executor.

OFF FOR EUROPE.

Vanderbilt sailed for Europe Tuesday.

Assassinated.

DUBLIN, May 6.—Lord Frederick Cavendish and Under Secretary Burk were shot dead this evening in Phœnix Park.

Good for the Driving Park Association.

CHICAGO, May 6.—The Driving Park Association have decided to exclude Wheels of Fortune and every other device from their grounds during the coming season's races.

PETITIONING BLAINE.

The *Journal's* Washington special says the Republicans of Maine are circulating a petition asking Blaine to run for membership of the House, but it is not probable that he will do so.

The Way They Do It in Cincinnati.

CINCINNATI, May 6.—Fredolin Schuman, a leading saloon keeper, was given the full sentence under the Smith law this morning for keeping open on Sunday—one hundred dollars fine and thirty days in prison. The police are ordered to arrest on sight all who openly violate the law.

A Gigantic Fraud.

ST. LOUIS, May 6.—United States District Attorney has discovered a gigantic fraud. Burt & Miller, corner Fifth and Chestnut streets, have been sending circulars offering Government bond scrip for sale. The authorities descended on the office, but the principals had flown. Meanwhile John B. Cameron, believed to be a confederate, was arrested at Sioux Falls, Dakota, and taken to Yankton. It is thought the gang has realized $5,000 in St. Louis alone. McKinney & Scaugal, bankers, at Sioux Falls, Dakota, gave the first intimation of the fraud by showing they had been victimized. Bliss thinks these sharpers sold $50,000 worth of certificates in Dakota and Wyoming. The Washington office was notified and replied that suspicion of something wrong had been going on in the northwest and notified all land agents and banks in the Northwest to refuse the certificates until an investigation was made.

Base Ball.

CLEVELAND, May 6.—Cleveland 6, Chicago 5.

More of the Scrip Fraud.

YANKTON, May 6.—Considerable excitement has been occasioned here over the arrest of Jno. K. Cameron for alleged connection with the Louisiana and New Mexico land scrip frauds. The United States Land Office here holds six thousand dollars of New Mexico scrip, which the officers detected before receiving it in payment for lands. One banking firm, McKinny & Scougal, has $5,000 Louisiana scrip, which they received from Burt & Miller of St. Louis. The United States Court is now in session and the Grand Jury is investigating the fraud.

Forster's Successor.

DUBLIN, May 6.—Earl Spencer, the new Lord Lieutenant of Ireland, arrived here to-day, and was received by the corporation of the city, and was loudly cheered at every point on his way to the castle.

Davitt Released.

LONDON, May 6.—Davitt was released from Portland prison this afternoon. He drove to the station to take the train for London, accompanied by Parnell, Dillon and O'Kelley.

That part of the city that is in ashes was the oldest and best ornamented, being largely composed of inferior buildings, with here and there a fine one. The citizens are preparing to rebuild.

GEORGE AND ME.

We've Been Raking in the Loose Change About the County.

San Fernando, Its Rabbit and Wheat Crop—Newhall—The Oil Region—Standing a Road on Its End.

For some weeks past an old gray horse drawing a buggy with a man in it might have been seen spinning over the country roads of Los Angeles county at the break-neck speed of about three miles an hour. The principal members of this excursion party have been George Washington and the writer hereof. George Washington is a horse, George and I have been canvassing for subscribers for the WEEKLY MIRROR, and we have made quite a successful canvass of it thus far, besides taking in a number of subscribers for the TIMES, just for a change.

Last Tuesday we took a trip up the valley towards San Fernando, taking observations of the quails, the rabbits and the crops. The quails and rabbits are all right, regardless of the weather, but the barley and wheat are past finding out. Thus far they look green and promising, but whether there will be a bountiful harvest or not depends largely on the weather in the near future. With a little more rain immediately, or even heavy fogs, moderately good crops are assured, but with bright weather and drying winds the yield will be very light.

San Fernando has thousands of acres in wheat and barley, and other thousands of acres, just as good land, that has never been entered by a plow. When the valley is divided into small farms, the station will grow to a town of considerable importance. At present the only notable improvement is a new turn-table, and a section of round-house, capable of containing three locomotives, almost completed.

After a night's rest with Barclay, of the Porter House, we sped on up the road, looked into the mouth of the tunnel, passed over the steep grade and reached Newhall, a distance of nine miles, in less than four hours, George Washington showing no signs of fatigue, but appearing as frisky and full of life as any sixteen-year-old-colt, fresh from the pasture.

Newhall is a live place, with the appearance, at first sight, of an undue proportion of hotel and saloon accommodations. The Southern Hotel is a large, fine looking building, capable of accommodating about seventy guests, and still, although the place does not look as though it contained that many inhabitants, it is filled to its utmost capacity every night. There are two stores in the town, with large stocks of goods and seemingly doing a good business, as evidenced by the fact that at Mr. Campton's store there were four persons as busy as bees, assorting goods and waiting on customers. Here is where the stage from Ventura connects with the railroad, and this, in fact, accounts for the hotel being always full. It is further accounted for by the number of railroad men employed there and still further by the fact that Newhall is headquarters for the great oil region round about, the crude oil being brought to the refinery there by pipe line, made ready for the market, and immediately placed upon the cars. The principal oil region of the neighborhood—that is the region most developed—is Pico canyon, six miles distant, and for that we sped away. The first two miles of the road runs through a sea of green, waving, growing wheat, extending for miles and miles over the plain and running up the valleys among the surrounding hills like the gulfs and bays of a veritable sea, with occasional knolls too steep for cultivation and covered with live oak trees, serving for islands. This wheat, like that at San Fernando, depends on the weather in the immediate future to make a crop or a failure.

There is a good road all the way, the last few miles winding around the hills, which in places leaned over to look down upon us in a way that made us feel uneasy lest they should lose their balance and topple over into the road. To prevent shaking these hills down on us George slowed up to two miles an hour, which speed brought us to the city of oil before night. As George was not accustomed to crop the grass from the perpendicular pastures of the hillside he asked leave of Mr. McPherson's horse to stand in the stall with him and eat hay, which was generously granted. Being dry, George sniffed the water of the little rivulet which meanders through the canyon, but refused to drink; whereupon one of the workmen remarked that he was like the Los Angeles capitalist, because he "didn't want any oil in his'n." And in fact the rivulet was about half crude oil and half water. The workman's joke on George referred to the fact that this bonanza has been lying here for years and our capitalists let it alone until it attracted the attention of capitalists from abroad, who have taken possession and are making a good thing of it.

George having disposed of himself for the night, I started out to canvass for subscribers and see what was to be seen. The first thing observable, as darkness came on, was that the city was lighted with gas, and this led to the further discovery that the cooking was done, the rooms heated and the engines run, all without any other fuel than that obtained by striking the end of an iron pipe into one of the oil wells and making connections with such places as required lighting or heating.

There are eight wells now yielding oil, and three more in process of sinking, some in the canyon, some on the hillsides and some on the tops of the peaks, five hundred feet almost perpendicular from base to top, and almost three thousand feet above ocean level.

In the morning, observing a good wagon road standing on end and reaching to the summit, I invited George to take the buggy and go with me for a stroll over the hills, but he declined, on the ground of ha(y)ving more important business and so I went alone, and was rewarded for my climbing by seeing more wells yielding oil, others being sunk, and a magnificent view of Newhall valley, and the mountains beyond. Large boilers, heavy machinery, timber, and all the etceteras for oil mining and the comfort of the miners, have been hauled up these almost perpendicular roads by teams and a little assistance at times by block and tackle. The deepest well on the mountains is a little over 1,500 feet in depth, and none yet have been sunk but what have yielded oil in remunerative quantities. A 2-inch iron pipe, about seven miles long, runs from Pico canyon to the refinery at Newhall, and through this an average of one hundred and seventy barrels of crude oil is sent every twenty-four hours, which quantity will, no doubt, be rapidly increased as more wells come into bearing.

Having learned this much and more, for which there is no space at present, I loaded all the small change of the camp, received for subscriptions, into the buggy, and hastened away for Newhall at our usual lightning speed. J.

A Reckless Child.

A novel scene was witnessed on Temple street a day or two ago, that of a mere child of a boy riding on a bicycle attached to a horse's saddle and the horse going at a furious speed up the street. By the time Buena Vista street was reached the boy and bicycle were tumbled into a confused heap. The rope got loose and the horse cantered away. That child will be seriously hurt one of these days if not looked after.

THANKS.

The Managers of the Orphans' Home Express their Gratitude.

At the regular meeting of the Orphans' Home Society, held on the 4th inst., the Secretary was instructed to express the deep sense of gratitude which every member of the Board of Managers feel, toward Miss Mamie Perry, for the kind spirit which led her to undertake the recent concerts for the benefit of the Home; to express also their heart-felt recognition of her patient training of the children, and her untiring efforts, in many other ways, which rendered the concerts so complete a musical success. To the Misses Smith, Moore and McLean, and Prof. Enderlein, the Managers wish to return thanks for the donation of their services at the first concert, and to Prof. Fiske and Dr. Fernandez, for both concerts. To Chas. E. Day, they are under obligations for the use of a fine piano, as well as for the management of the reserved seats.

They also wish to thank the Turn Verein Germania for the free use of the hall for the first evening; the entire press of the city for advertising and kindly notices, Yarnell, Caystile & Mathes for printing tickets; Messrs. Riley and Henry Murray for substantial services; Main Street R. R. Co., for bringing Orphans to the concert; Messrs. Bath and Gephard for services at the door; Dotter & Bradley, Sharp, Bloeser & Ullman, R. Bills, John Reynolds, L. C. Maynard, and John Osborne, for reductions in charges; Mr. Geise for services as janitor, and the many friends who, by selling tickets, contributed largely to the financial success of the concerts: especially to Mr. Gephard who individually sold 250; the public for its liberal patronage.

The explanation of this tardy recognition is, that the President of the Society is absent from the State, and that sickness of other managers has prevented an earlier meeting of the Board.

THE LEAGUE OF DELIVERANCE.

The People of Compton Solve the Chinese Problem.

The meeting of the citizens of Compton to consult with reference to freeing themselves from the Chinese, resulted in the organization of a society called the "League of Deliverance." A note from the Secretary, Mr. W. I. Stevens, gives the plan and object of the society, as follows:

The committee on plan of action presents a report, declaring that the organization shall be known as the "Compton League of Deliverance," the object being to discourage and finally abolish the employment of and residence in the United States of the Chinese.

All persons eligible to citizenship, together with their families, relations and friends, may become members of this League by subscribing to the following pledge:

"I hereby pledge my honor that I will neither buy from nor sell to any person of Chinese birth or parentage; that I will not employ them myself, nor cause them to be employed by others in any capacity whatever. That I will exert my influence against patronizing, or assisting any person who in any manner employs, sells or buys from, or rents or leases to, or has any dealings with the Chinese.

The above pledge to go into effect six months after date.

SOCIETY SAUCE.

Last Week's Doings in Los Angeles Social Circles.

The Slauson Party—Marriage Licenses Recorded for April—Mrs. Tenbrook's Death—Personals.

THE SLAUSON PARTY.

The entertainment given by the Misses Slauson on Thursday evening last, at their house on Figueroa street, was the most elegant and delightful of the season and will be remembered by those present as one of the happiest occasions in the social history of our city. The parlors were handsomely decorated with flowers, ivy and smilax, giving them the appearance of bowers in fairy-land. There were about sixty guests present and the very happy manner in which they were entertained made them "keep on with the dance" till the wee sma' hours began to grow.

Among those present besides the fair hostesses were Mr and Mrs Slauson, Mr and Mrs McLellan, Mr and Mrs Gardiner, Mrs Smith of Muskegon Mich., Mr and Mrs Hislop, Mr and Mrs H T Lee, Mr and Mrs Hutton, Mr and Mrs Lazarus, Miss Sneath of San Francisco, Misses Cole, Lester, Pruneda, Morford, Jones, Glassell, Herdman, Milliken, Mr Lindsay Keane of Riverside, Messrs Sewell, Stephens and Swanivick of San Gabriel, S M White, Stephenson, Kays, Lee, Patten, Jones, Seward, Cole, Dewey Morford, Caswell, James Slauson and Macneil.

DENVER.

From the Denver *News* of April 30, the following notes are culled. Several of those mentioned are coming direct to this city and the Denver colony is becoming so strong here that it is possible all of them may visit Los Angeles;

Quite a party of Denverites leave for California soon.

Mr. and Mrs. Beckwith will leave for California in a few days.

Mrs. J. S. Brown goes to California soon to visit relatives.

Mrs. H. M. Howard goes to California in a few weeks to pass some time.

Mr. and Mrs. A. K. Clark have returned from California.

Miss Mamie Lester will probably remain in California all summer.

Mr. and Mrs. Bayles have gone to California, accompanied by their pretty and popular daughter, Miss Lydia Bayles. They will pass some time on the Pacific coast.

Dr. Sinsabaugh is still in Denver.

THE MAGNOLIAS.

The Magnolia Club gave a dance at Leck's Hall on Monday evening. It was their first party, and was a success, socially and otherwise. The Club is composed of some of the best of the young people and the younger married people of the city. They will give another party during the first of next month.

MARRIAGE LICENSES.

The following marriage licenses were filed in the County Recorder's office during the month of April: C. Acunya and D. Leiva, E. B. McDonald and Huldah Breeding, F. D. Givens and L. M. Gonzales, Charles Patterson and Sarah Rowland, John H. Vandeusen and Elvina R. Lingo, Louis Harper and Carrie Holst, J. A. Bernard and Agnes Hubert, D. H. Collins and Ada Arnold, A. G. Ogilvie and Mary Smith, Theodore Mundell and Annie Madison, T. B. Merchan and A. J. Beeler, William Evans and Mary I. Shelley, T. P. Frazer and Sarah H. Morgan, T. Baca and M. Lopez, Daniel Davenport and Annie Wiggins.

THEATRICALS.

The theatre-loving people of Los Angeles enjoyed the brilliant operas of the San Francisco Opera Company, under the management of Fred Barrett, yesterday afternoon and evening. Messrs. Osborne & Wood have placed this community in debt to them for providing these entertainments.

DEATH OF MRS. TENBROOK.

On Saturday, April 29th, Mrs. Dr. Leal was called upon to mourn the death of her aged and beloved mother, sixty-seven years old. She was an old resident of Los Angeles and highly esteemed for her many virtues by all who knew her. Her illness was brief but very severe, and notwithstanding that all was done in the power of human skill to do it was unavailing, and death claimed another victim. On Sunday afternoon the body was attended to its last resting place by a large concourse of friends.

LANDSLIDE.

A Singular Phenomenon Friday Morning on the Feliz Ranch.

Friday morning a most remarkable landslide occurred on the Feliz Ranch, some eight miles from this city, near the canal reservoir. A piece of land about a hundred and fifty feet across and one hundred and seventy feet long, slid off the side of a hill down into the flat. On this piece was an oak tree that was carried in its natural perpendicular position some forty feet, where it yet remains in an upright position. The slide took away a large section of a zanja, which will have to be repaired, either by building a flume, or pipe, or else blasting round the hill in the rock.

Crawfished.

As the City Council did nothing last evening but fight over a deputy zanjaship, it is to be presumed that they have dropped the Chinatown nuisance entirely Crawfished.

Match Making.

A match manufactory could be made an extensive and profitable industry in this city especially in view of the fact that it is probable a bill will pass Congress this session abolishing the abominable revenue tax of one cent per hundred, which has heretofore descriminated in favor of a few big concerns. It is a well known fact that but little capital is required to operate with, the lumber and chemicals, especially costing but a trifle, comparatively, hence there is every reason for affirming that a match manufactory would pay in Los Angeles.
